Pathways in Technology Early College High Schools (P-TECH) is an innovative partnership between a school district, a community college, and one or more local high growth industry employers. Students begin as early as ninth grade and continue for up to six years (i.e. high school and two equivalent years of college). Students graduate with both a high school diploma and an industry-recognized associate degree, in addition to gaining relevant workplace skills.

The P-TECH pathways that are offered at STEM are Robotics and Automation (formerly Mechatronics) and Cybersecurity. Robotics and Automation is a synergetic integration of mechanical, electrical, control, automation, robotics, computer system for industry and computer engineering technologies. Cybersecurity prepares students to access the security needs to computer and network systems, recommend safeguard solutions, and manage the implementation and maintenance of security devices, systems and procedures.

STEM School Highlands Ranch will pay the tuition portion of that college education that is outlined in the P-TECH pathway. Families are responsible for books, fees, and additional tuition costs from online classes, as well as courses that are not outlined in the P-TECH pathway. Families must reimburse the school for any course not successfully completed (grade of "F", "I", or "W").

To qualify for the P-TECH Program, students must:

1. Be in 9th, 10th, 11th, or 12th grade
2. Be enrolled in P-TECH program by the beginning of 11th grade
3. Have a social maturity to excel in a college environment
4. Receive a minimum score on the ACT, SAT, or Accuplacer as needed
5. Complete all portions of the P-TECH application and submit the completed application to P-TECH navigator by the published deadlines
6. Be enrolled in available P-TECH courses
7. Be enrolled in the College Opportunity Fund

I understand that I will not receive my high school diploma until I finish the P-TECH program.
