Speakers:

### Simi Basu

STEM School Highlands Ranch

(M.Sc(IT), MBA(IT), Scrum Master, AWS CC, Enhancement Program Specialist, Computer Science Teacher and CyberSecurity Coach at STEM School Highlands Ranch, and a Former IBMer.

My name is Simi Basu. I am an Enhancement Program Specialist, Computer science teacher and a Cyber Security coach at STEM School Highlands Ranch. I am thrilled to be working with such an amazing group of staff, students, and parents. I am a teacher who is passionate about computer science and technology. Here is a little background about me.

I moved to Colorado five years back from Scottsdale, Arizona. I have worked with IBM and other software companies for 13 years on different technologies. I am a SCRUM master and part of WiCys and Women in STEM organizations. Everyday my passion is to inspire students to reach further than they think they can and prepare them for jobs that don't exist yet. I prefer giving students the real-world projects and scenarios they can imagine and motivate them to try new things and share new ideas. I enjoy creating curriculum that challenges their minds and engages them to their full potential. My life outside school revolves around my family.

### Dr. Carletta Stewart

BS, Psychology, Master's in Business Administration, Doctor of Education, Leadership for Educational Equity.
