Topic: The STEM Experience

Enrichment

Enrichment at STEM is the place students can find all of the school's after-school, summer, and other enrichment offerings. Because many of the offerings are as unique as our school is, we invite students from throughout the Denver metro area to participate in our Enrichment program.

Through Enrichment at STEM, students can participate in a variety of amazing clubs and programs, in arts, athletics, robotics, technology, and a variety of special interests.

Enrichment

Enrichment opportunities are updated each week and can be found at:
