

Start Your Career as a Manufacturing Intern in a Growing Company

At ProMach, we're looking for people who want to shine. You'll have opportunities to take your career in the direction you desire. You can be creative. Strategic. Persuasive. Influential. A mechanical marvel. A customer service authority. Meticulous. A closer. A futurist.

You'll be challenged and rewarded. Make friends and have fun. Improve our customers' packaging performance and efficiency every day. Help build the future of packaging automation. We're proud of that and hope you will be too.

Do we have your attention? Keep reading.

Panther (ID Technology) is seeks a summer intern to assist with various controls tasks and projects. In these roles you will:

- Gain basic experience with PLC's
- Read ladder logic and structured text
- Develop code for existing and future systems
- Develop code to assist in other departments

JOB REQUIREMENTS

- STEM school or trade school student
- Attention to detail.
- Good communication and interpersonal skills.
- Ability to take direction and work with a team.

What's in it for you?

There's no monopoly on good ideas or limits to how far you can advance with our team. We offer an open, communicative environment that fosters individual initiative. We pride ourselves in being a company where people choose to build a career.

In addition to growth opportunities, as a ProMach employee, you receive more than just a paycheck. Starting salary range for this role is \$18.00-\$23.00 per year depending on experience. This estimate represents the typical salary range you could earn in this position and is just one component of ProMach's total compensation package for employees. Other rewards may include annual bonuses, short- and long-term incentives, and program-specific awards.

Total compensation includes your salary, comprehensive medical/dental/vision programs, as well as life insurance, a generous paid time off program, and a retirement savings plan with a company match. And because we understand the importance of feeling protected, there is no waiting period for benefits – you are eligible on your first day of employment!

[Pro Mach, Inc.](#)

We have been named to the Inc. 5,000 list of fastest growing private companies in the U.S. seven times. We continue to introduce innovative products, enter new markets, expand our global presence, and actively acquire new capabilities.

We have the rewards, opportunities, and the market strengths of a large organization combined with the entrepreneurial culture of a small, fast-paced company. You will enjoy the benefits of working with a growing company that competes globally with the personal touch and feel of a smaller company where you can make an impact every day.

ID Technology

Customers across North America depend on ID Technology to design, build, and install the most effective labeling, coding, and marking systems for their product lines. As a leading manufacturer and integrator of labeling, coding, and marking equipment, ID Technology provides our customers with six separate label converting plant locations across North America to produce quality labels and tags efficiently and quickly. ID Technology also manufactures the LSI line of integrated labeling systems. As part of the ProMach Labeling & Coding business line, ID Technology helps our packaging customers protect and grow the reputation and trust of their consumers.
