

Creating class lists for the next school year is a collaborative and thoughtful process that involves input from multiple perspectives. Teachers know your students best and will be an integral part of this process in order to place your student in the best learning environment. We appreciate your thoughts and insights into your student and their specific needs.

Throughout this process, we consider a wide range of student variables. Parent input is one of many factors that are taken into consideration. In order to achieve a balance among classes other factors include the academic, social, and behavioral characteristics of all students, gender balance, and other diverse learning needs.

STEM School Highlands Ranch cannot guarantee parent requests for specific classroom teachers and we request that you please refrain from discussing potential class placement with staff. We strive to optimize student learning with a class placement process, and ask that you trust and respect the professional advice and perspectives of our committed and caring staff. We will inform everyone of class assignments in early August as part of our school registration process.

Thank you for your engagement and partnership in your child's education!

STEM Highlands Ranch Administration

Student Name:	Current Grade:	Today's Date:
Name & Relationship of person completing the form:		

I feel my student's strongest subjects are: _____

I would describe my student's learning style as more:*

(Check all that apply)

- Visual (spatial): Prefers learning with pictures, images, and spatial understanding.
- Aural (auditory-musical): Prefers learning with sound and music.
- Verbal (linguistic): Prefers learning through words, both in speech and writing.
- Physical (kinesthetic): Prefers learning with hands, movement, and sense of touch.
- Logical (mathematical): Prefers learning with logic, reasoning, and systems.
- Social (interpersonal): Prefer learning in groups or with other people.
- Solitary (intrapersonal): Prefers learning alone and using self-study

I feel my student's strengths include:

Challenges for my student include: (examples: often a follower, making and keeping friends, fear of failing, thinks they are not good at math)

Concerns I have for my child at this time include (can include academic, social, behavioral, etc.):
