

# Free STEM Programs for Students

Join us at Space Foundation Discovery Center.  
Hands-on educational activities and snacks included.

4425 Arrowswest Dr, Colorado Springs, CO, 80907

## Pioneer Space and Earth Program (PSEP)

**Ages: 10-12**

**Dates: June 3-7**

**Time: 8:30 a.m.-12:00 p.m.**

PSEP (Pioneer Space & Earth Program) involves elementary students in studying Earth's unique properties, fostering protection and cautious stewardship in space. Students act as consultants, resolving challenges on Earth that transfer into the greater space ecosystem.

Join us to learn about our home planet and beyond. This weeklong, half-day program will allow your student to engage in new lessons created by our wonderful space education specialists. Space Foundation invites you to be a part of this exciting adventure.

**Register  
for PSEP**

## Cadet Space and Earth Program (CSEP)

**Ages: 13-14**

**Dates: June 3-7**

**Time: 1:00 p.m.-4:30 p.m.**

CSEP (Cadet Space Explorer Program) Immerses middle-school students in the fast-paced world of space technology and lunar exploration. Students explore the challenges and thrilling possibilities of living on the Moon through hands on STEM lessons.

This weeklong, half-day program will allow your student to participate in brand new lessons from our space education specialists. Participants will solve design challenges, take part in hands-on science activities, explore Space Foundation Discovery Center, and learn new space concepts through programming and technology.

**Register  
for CSEP**
